Personnel Procurement

1. The Chief, Inspection and Security Staff is unable with his presently authorized clerical force to maintain an adequate rate of processing of security clearance cases in connection with the employment of personnel. A considerable backlog has been built up in his office, and this situation will be further aggravated by a major additional procurement effort recently authorized for the Special Support Staff for a temporary period of one year.

2. In order to eliminate backlogs and enable the Inspection and Security Staff to keep up with our current personnel procurement rate, a temporary authorization of 6 clerical personnel is hereby granted for that Staff for a temporary period of one year. The personnel for this purpose will be provided from the Personnel Pool without an increase in the Table of Organization authorization for the Inspection and Security Staff.
